Brandeis University Dean's
List 2020, 2021

Mason Ware

CS Undergraduate at Brandeis University
Los Angeles, CA. / Boston, MA.

Summary

Currently an undergraduate at Brandeis University earning a B.S. in Computer Science, graduating in 2024. Deeply interested in Full Stack Development and becoming more and more interested in cloud architecture. Continuing with self-teaching - completing bootcamps and codecademy courses - and real-world experience within the IT Industry to attempt to bolster my skills with development using in-demand practices and techniques.

Additionally familiar with tools like Kubernetes/Docker, postgresSQL, react.js, node.js, and HTML5/CSS3.

Now working to find internship opportunities for Summer of 2022.

Experience

Cleeng

Software Engineer Intern

June 2021 - August 2021 (3 months)

Remote / Poznan, PL.

Worked on both the front-end and back-end in creating a new MVP for a leading sports streaming subscriber management company with clients such as Sky Sports, Altice and Sinclair Broadcast Group. Honed skills in JavaScript, React Native, CSS 3, and HTML 5.

Brandeis University Autonomous Robotics Laboratory

Robotics Researcher and Designer

June 2021 - September 2021 (4.5 months)

Waltham, MA.

Working in ROS and Python to design and implement a system for robot-machine communication. Designing a universal controller and data display tool for the ongoing Campus Rover Project.

AnnaPurna Interactive / Giant Squid Studios

Game Design Intern

April 2020 - June 2020 (3.5 months)

Santa Monica, CA.

Wrote JUnit Tests and Documentation as well as observed the process of Game Design & Development in a professional context - offered through my high school.
